## Product Description

### 1.0MHz RF EMS Beauty Instrument Skin Tightening Rejuvenation Anti Aging Machine For Face / Neck

#### Product Description:

The RF EMS Beauty Instrument is a versatile machine that can treat various areas of the body, including the face, neck, and body. It is equipped with Fractional RF technology that delivers energy deep into the skin, stimulating collagen production and improving skin elasticity. This technology also helps to reduce fine lines and wrinkles, making the skin look younger and more radiant. In addition to Fractional RF technology, the RF EMS Beauty Instrument also features IPL technology that emits light energy to target skin pigmentation and dark spots. This IPL RF Beauty Equipment also has a built-in LED system that emits wavelengths of 620nm, 415nm, and 530nm. These wavelengths help to improve skin's overall complexion and aid in skin whitening. The RF EMS Beauty Instrument is an all-in-one beauty machine that combines multiple functions to provide a comprehensive skincare treatment. It is also equipped with EMS technology that stimulates muscle contractions, which can help to tone and firm the skin. This feature makes it a 360 Cryolipolysis Machine that helps to reduce cellulite and contour the body. In summary, the RF EMS Beauty Instrument is a powerful beauty machine that can transform your skincare routine. With Fractional RF technology, IPL, and LED functions, it can improve skin elasticity, reduce fine lines and wrinkles, and even out skin tone. Its EMS technology also helps to tone and firm the skin, making it an all-in-one beauty machine that provides a comprehensive skincare treatment.

**Small Vacuum roller  
(massage+infrared light)**

**40k cavitation for body**

**RF(infrared light)  
for eye and face**

**Big Vacuum roller  
(massage+infrared light)**

### Applications:

- 1. Beauty Salon:** The RF EMS Beauty Instrument can be used in a beauty salon to provide skin tightening and slimming services to clients. It is a non-invasive treatment that uses radio frequency waves to heat the skin tissues, thus promoting collagen production and tightening the skin. This is a popular treatment that can help clients achieve a more youthful and rejuvenated appearance.
- 2. Spa:** The RF EMS Beauty Instrument can also be used in a spa to provide skin whitening services. The LED wavelengths of 620nm and 530nm can help reduce dark spots and pigmentation on the skin, leaving the face looking brighter and more radiant. This is a popular treatment for clients who want to improve their overall complexion.

**3. Home Use:** The RF EMS Beauty Instrument is a portable device that can be used at home. It is easy to use and comes with different attachments that can be used for different parts of the body. This is an ideal product for people who want to maintain their skin's health and appearance without having to go to a beauty salon or spa.

**4. Medical Spa:** The RF EMS Beauty Instrument can be used in a medical spa to provide 360 cryolipolysis machine services. This is a non-invasive treatment that freezes and destroys fat cells in the body. Clients can achieve a slimmer and more toned appearance without the need for surgery or downtime.

The RF EMS Beauty Instrument is a multi-functional product that can be used in different occasions and scenarios. It is a reliable product that operates on a voltage range of 100-240VAC, making it suitable for different countries. It is an essential product for anyone who wants to maintain their skin's health and appearance.

### Customization:

With treatment areas including the Face, Neck, and Body, our RF EMS Beauty Instrument offers versatile usage. Available in two colors, White and Black, this product also offers 5 modes for added functionality.

Whether you're looking for a 360 Cryolipolysis Machine or an OEM Thermage RF Machine, we can customize our RF EMS Beauty Instrument to suit your needs. Contact us today to learn more about our product customization services.
